Brewferm connection set for Pump'in pump

Complete set for using your Brewferm Pump'in magnetic drive pump to circulate wort, cleaning products etc.

The set includes:

- 2 m silicon hose (9 x 13 mm); which can be cut to size depending on your set-up.
- 2 1/2" hose socket 13 mm; fits perfectly with the accompanying silicone hose.
- large plastic hose clip for clamping the output of your pump. This allows users to reduce the output flow rate if desired. Applicable when you are using your Pump'in as a circulation pump for wort.

Warning: only clamp the output end of the pump. Clamping the input end may cause the pump to run dry, which can lead to overheating.

Specification

Packing dimensions and weight:

Weight	0.5 kg
Length	20 cm
Height	30 cm
Width	20 cm
EAN code	5420069820701
