Brewferm Pump'in 15 magnetic drive pump

High quality, multi-purpose magnetically driven pump. Suitable for pumping liquids up to 90 °C, not to transfer boiling wort. Do not run the pump dry.

Also available in an advantageous Brewferm® pack (brewing system with magnetic drive pump, wort chiller and connection set)! View the Combo Pack here.

Properties

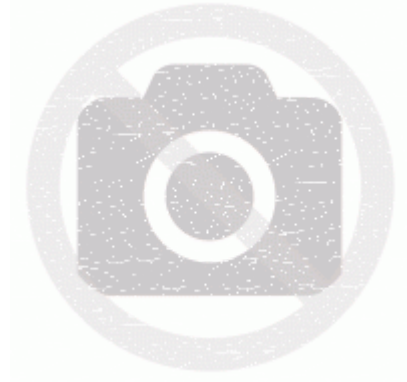

- fully closed casing
- plastic casing
- virtually silent
- not self-priming

Applications

- circulate wort during the mashing when using a filter bottom (RIMS)
- transfer wort from lauter tun to brewing kettle
- transfer wort from brewing kettle to fermentation tank (connect behind the cooler)
- re-circulate cleaning liquid through plate heat exchanger, soda keg, etc.
- circulating cooling water through water-cooled fermentation tanks
